Professional Summary

Detail-oriented Quality and Engineering professional with hands-on experience in documentation control, process improvement, quality auditing, and data analysis across laboratory, manufacturing, construction and technical environments. Skilled in updating procedures, tracking KPIs, supporting QA teams, and improving workflow efficiency. Strong communicator with proven ability to work independently, troubleshoot issues, and support cross-functional engineering teams. Currently pursuing advanced engineering experience with long-term plans toward obtaining a P.Eng designation.

Education

Master of Engineering – Manufacturing Engineering, McMaster University

Expected Completion: September 2025

Relevant courses: Introduction to Railway, Railway Electrification

Bachelor of Technology – Automation Engineering, McMaster University

Graduated: December 2023 | Includes Advanced Diploma in Chemical Engineering Technology and Business Management Certificate

Core Skills

- QMS and ISO 9001
- Quality Assurance & Quality Control
- Documentation Control & SOP Updates
- Root Cause Analysis & Corrective/Preventive Action (CA/PA)
- Change Requests (CRs) & Process Improvements
- Data Analysis & Technical Reporting
- Non-Conformance Investigation
- Engineering Project Support
- Microsoft Office (Excel, Word, PowerPoint, Outlook)
- Quality Training & Mentorship

Professional Experience

Closed Beta Tester | HoYoverse (Honkai: Star Rail)

Remote | 2024 – Present

- Participated in early access beta testing of game updates and patches, identifying and reporting bugs, visual glitches, and gameplay imbalances across multiple builds.
- Collaborated with the developer team by submitting detailed feedback and bug reports via internal tracking systems, helping prioritize fixes ahead of public releases.
- Tested new content, UI changes, and system mechanics to ensure functionality, user experience consistency, and platform compatibility.
- Provided insights on player engagement, narrative pacing, and feature usability, influencing adjustments made in final patches.

- Maintained confidentiality and adhered to NDAs while effectively communicating technical and gameplay findings to support teams.

Quality Coordinator | EllisDon

Sep 2024 – Dec 2024

- Coordinated inspections and ensured compliance with engineering drawings and safety codes.
- Reviewed and enacted temperature control plans and monitored installation procedures.
- Maintained and updated project documents, shop drawings, and RFI logs to support construction progress.
- Supported field operations and ensured daily alignment with project quality standards.

Lab Assistant – QC Technician | Baycoat

Jan 2023 – Sep 2023

- Calibrated and maintained instruments to ensure precise chemical sample testing.
- Conducted audits and tests on over 100 samples, reducing defect rates by 25%.
- Managed and resolved customer complaints by producing quality-controlled evaluation samples.
- Compiled findings into concise technical reports and maintained organized documentation in line with GDP standards.
- Used Excel to analyze data trends for real-time quality assurance decision-making.
- Conducting quality inspection testing such as film measurement, impact testing, scratch testing, color reading.

Teaching Assistant | McMaster University

Sep 2022 – Dec 2022

- Led tutorials and labs in Robotics and Professional Communication for over 100 students.
- Graded assignments and provided individual feedback to support learning outcomes.
- Collaborated with faculty to align grading, tutorial delivery, and academic standards.

Employee Safety Coach (Co-op) | Ford Oakville Assembly Plant

Jan 2021 – Jul 2021

Key Projects

Rapid Prototyping – Planetary Gear System

Jan 2025 – April 2025

Capstone: Smart Access Security System

Jan 2023 – Dec 2023

IoT - Robot Hand

Mar 2022

ADDITIONAL STRENGTHS

- Strong attention to detail
- Independent problem-solving
- Fast learner with strong initiative
- Excellent written & verbal communication
- Ability to manage multiple tasks in fast-paced environments
